

Privacy Policy for websites managed by Yigsoft Ltd.

version: 0.3

Introduction and Scope

The present Privacy Policy covers the privacy, data protection and data management ruleset of Yigsoft Ltd.'s (address: 1117 Budapest, Nádorliget street ap. 8. B. ground floor 2., company registry number: 01-09-382405, hereinafter: "Yigsoft" or "we") websites under the yigsoft.dev domain as well as any other additional websites or mobile applications managed by Yigsoft (hereinafter: "Website") and outlines the principles of data management regarding personal data collected by the Website, along which Yigsoft provides its related services.

Yigsoft is committed to keeping the personal data of all visitors safe and respects your privacy when using our Website, thus collecting personal data is limited to the essentials for the provision of our services, respond to your initiated contact requests and enhance your user experience.

The measures regarding your personal data that we utilize when visiting the Website is compliant to Regulation (EU) 2016/679 of the European Parliament and of the Council (hereinafter: "GDPR regulation") and the Hungarian Act CXII of 2011 (hereinafter: "Infotv.").

Types of personal data collected by Yigsoft

Automatic data collection

When you visit our website, the following information are collected automatically:

- The date and time of visiting the website;
- Your external Internet Protocol (IP) address;
- The type and version of your operating system;
- The type and version of your web browser;
- The referrer site (i.e., the website from where you have got to our website)

Such information is only used to collect data helping to maintain our websites (with measuring e.g., the number of visitors or system downtime). Based on this information, Yigsoft does not attempt to identify or profile you.

For the reasons of maintaining the correct working of our Website, automatic data collection is done with the legal justification of the legitimate interests of Yigsoft, as specified in Article 6 (1) f) of the GDPR regulation (*"processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are*

overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child.”)

Contact data collection

If you choose to get in contact with us either by the contact form or the application form, Yigsoft may receive the following personal data provided by you:

- Your name;
- Your e-mail address;

If you have contacted us through the contact form of the website, we may use this information to contact you or provide you with assistance related to the matter of your respective contact message.

Your personal data provided on the contact form is only stored for the time period while it is necessary for the subject of the inquiry (e.g., while we process your application to Yigsoft or while we answer your questions), and deleted afterwards, but in no case it is stored longer than 30 days, unless you specifically request it.

As you are voluntarily providing this information, with checking a consent box to the present Policy on the contact form as well, the legal justification for personal data collection regarding contact data is consent, as specified in Article 6 (1) a) of the GDPR regulation (*“the data subject has given consent to the processing of his or her personal data for one or more specific purposes”*).

Data processors and data center location

For the purpose of the protection of our websites from cyberattacks, we use the content delivery network (CDN) services of Cloudflare, Inc. (hereinafter: “Cloudflare”) with the legal justification of the legitimate interests of Yigsoft, as specified in Article 6 (1) f) of the GDPR regulation (*“processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child.”*).

Cloudflare processes limited personal data (IP addresses) in the form of logs, which may be processed in data centers outside of the European Union, in the United States of America.
